THƯ GIỚI THIỆU

Dear Mr.Jardine

My name is Quan Nguyen, and I have worked for Orient Software for 1 year. My job is about client side frameworks (e.g., AngularJs) though, I could program on Node.js & Ruby. I can use SQL, Git & Unix Shell comfortably. Also, I use English a lot in the daily basics so I think it would not be a problem. I would like to apply for the Node.js position but I'm always willing to work on Ruby. If you find me qualified for the position, you can contact me at 01636960231. I hope to see you soon!

Regards,
Quan Nguyen

P.s.: I have written a client side demo for another company recently. If you do not mind, you can refer the following links:
